Online Timesheeting coming in 2019

Did you know we employ over 200 apprentices & trainees across Australia?

## WOMEN IN CONSTRUCTION PROGRAMS AND INDIGENOUS EMPLOYMENT PROGRAMS

At Protech, our Purpose is 'to be a positive influence in peoples lives' and our Vision is to be 'First Choice'. With our clients increasingly looking for a service provider who can deliver on their workforce diversity requirements, it presented us with a great opportunity to deliver on our Purpose and our Vision at the same time.

In late 2017, Protech launched our Indigenous and Women-In-Construction Programs and to date we have provided employment opportunities to 106 men and women who would not have otherwise had that opportunity. In October 2018, Protech launched our new Indigenous Business, the Blackrock Protech Partnership which will allow us to provide more Indigenous Australians employment opportunities and help our clients achieve their mandated and aspirational Indigenous Employment and Business Procurement Targets. If you know someone who would benefit from our one of our Diversity programs, make sure you provide their information to your Protech representative.

HAVE A GREAT IDEA YOU THINK WE SHOULD WORK ON?
